

WILEY

Top Cited Article 2020-2021

Congratulations to:

Gregory Sheard

whose paper has been recognized as a **top cited** paper in:

INT JOURNAL FOR NUMERICAL METHODS IN FLUIDS

**Natural convection and entropy generation in square and skew
cavities due to large temperature differences: A Gay-Lussac-
type vorticity stream-function approach**

**A centrifugal buoyancy formulation for Boussinesq-type
natural convection flows applied to the annulus cavity problem**
